

FAASTeam presents:

## KAPA Pilot/Controller Round Table

Join us for an informal discussion between pilots and air traffic controllers at Centennial Airport! KAPA is one of the busiest General Aviation airports in the country. Every day at Centennial Airport is a busy day filled with radio congestion and a wide variety of aircraft types operating in a small area. Controllers and pilots must be sharp and succinct on the radio to preserve valuable radio time for safety's sake. We know we are already doing pretty well, but there is always room for improvement.

The goal of this round table is to achieve optimum communications between Air Traffic Control, Airport Administration, and the General Aviation Community – specifically Aspen Flying Club pilots. KAPA ATC professionals will lead a forum-style discussion where pilots will be encouraged to ask questions and express concerns. We are very fortunate to have a friendly group of individuals working in the tower, who are eager to talk with us and show us how we can all work better together as a strong team.

**Directions:** Aspen Flying Club is located in the Denver Jet Center East building at Centennial Airport KAPA. Follow Peoria Rd until it meets the control tower, then take the 2nd exit off the roundabout onto eastbound E Control Tower Rd. Aspen Flying Club is on the right side, with ample parking in front of the building.

## Event Details

**Wed, Aug 17, 2016 - 18:00 MDT**

**Aspen Flying Club**

13000 E Control Tower Rd

Unit K-16

Englewood, CO 80112
